**YOUR PARTNER FOR PROGRESS**

PETRONAS Lubricants International (PLI) is the global lubricant division of PETRONAS, one of the most successful petrochemical companies in the world.

Our mission is to deliver proven product technology and related services benefitting from our 100 years of experience. We believe in maximising your productivity with value-added products and services that are global, yet personal – our presence in 128 countries ensures our technical expertise reaches you wherever you are.

PLI's differentiator is product excellence, developed by world-class Technology Centres and brought to your market with local expertise. Our passion for performance improvement makes us an obvious choice for key OEMs and delivers success in Formula One Motorsport. Now, it has translated into a comprehensive industrial product range and tailor-made services for you.

Together, let's take your circulating systems' effectiveness to the next level.

**YOUR CHALLENGES, OUR EXPERTISE**

Circulating oil systems provide a continuous flow of lubricant to bearings, gears and other large industrial applications. They are suitable for use in environments where high temperatures, contamination and extended oil life is expected and ensure system reliability. Our goal is to ensure we provide solutions that lead to optimized efficiency and reduce equipment and maintenance costs.

At PLI, we understand that maximizing performance is your key challenge. That is why we have developed

**Fluid Technology Solutions™**, an intelligent approach to your fluid requirements that maximizes your business performance through tailor-made product offerings and expert services. Focusing our expertise, we've developed a comprehensive portfolio of state-of-the-art circulating oils that serves every type of oil circulating system. Choose the right product for your application need and take the performance of your machinery to the next level.

**YOUR KEY TO MAXIMIZING PERFORMANCE**

Focusing our expertise, we've developed a comprehensive portfolio of industrial circulating oils that serves every type of circulating system. Choose the right product for your application need and take the effectiveness of your circulating system to the next level.
